Important information for applicants

Applications can be made using the Department's digital platform for online services and transactions. Visit www.DES.qld.gov.au/connect for more information

This form is to be used to apply for a protected plant harvesting licence. Information requested will enable your application to be processed as prescribed by the *Nature Conservation Act 1992*. Your application must be assessed and a licence granted by the chief executive before you can proceed with the proposed activity. Your application may take up to 40 days to process.

Before completing your application please read the information materials included with your application kit. Before lodging this application you should be familiar with the requirements of the *Nature Conservation Act* available on the Office of the Queensland Parliamentary Counsel website <http://www.legislation.qld.gov.au>. If you have queries about how to complete this form correctly or need guidance contact the Department of Environment and Science (DES) Customer Service Team on 1300 130 372 option 4.

Terms and Conditions

Permits, licences and authorities Queensland's native wildlife is protected by legislation that aims to conserve biodiversity by protecting native plants and animals and their habitat. All native birds, reptiles, mammals and amphibians are protected, along with some invertebrates (certain butterflies, spiders and scorpions), freshwater fish and the grey nurse shark.

Other aquatic species are protected by the [Department of Agriculture and Fisheries](#), the [Great Barrier Reef Marine Park Authority](#) and the Australian Government. A licensing system helps us protect native wildlife species. By regulating the sustainable taking, keeping, using or moving of wildlife for commercial, recreational or other purposes we contribute to the maintenance of viable wild populations of plants and animals. The type of approval(s) you will need depends upon a number of things, including:

- The nature and purpose of your proposed activity
- The tenure of the area in which you intend to undertake your activity and
- The species of wildlife concerned

To apply for permits:

- within the protected area estate (except nature refuges and special wildlife reserves) as defined in the *Nature Conservation Act 1992* (e.g. national park, national park [Aboriginal land], national park [Torres Strait Island land] etc); or
- within a marine park under the *Marine Parks Act 2004*; or
- within State forest estate under the *Forestry Act 1959* (e.g. state forests and timber reserves) please contact the Queensland Parks and Wildlife Service.
