(1/4)

(2/4)

(b) where required, erect and maintain fences and gates in good stock proof condition at all times. Fencing to be completed prior to undertaking the clearance. (Note: Where the adjoining land is to be kept free of stock, no fencing is required unless grazing of the adjacent land is proposed);

(c) undertaking an effective and ongoing weed and rabbit control program within the set-aside area to ensure the successful regeneration of native vegetation in the area;

(d) not to erect, place or permit any structure or dwelling to be placed on the SED area, other than approved signs;

(e) not to permit the removal, introduction or disturbance of any soil, rocks or other materials or the construction of dams other than those on already existing on the SED area;

(f) not to allow any deterioration of in the natural state of flow, supply, quality or quantity of any body of water contained from the SED Area;

(g) not to permit the removal of any standing or fallen timber;

(h) close fence/erect application or artificial feeding;

(i) no soil disturbance beyond agreed management actions;

(j) no cropping;

(k) no dumping of rubbish, unwanted machinery or plant material;

(l) not to allow access to the set-aside area by any vehicle or machinery unless that access will assist in providing growth or regeneration of native vegetation; and

(m) to monitor the native vegetation for impacts by over abundant native fauna species as per the vegetation appropriate management of abundant native fauna when they are significantly impacting on the native vegetation;

(Note: see also the Requirement & SED management in Order for a Significant Environmental Benefit, section Requirements for establishing or ground SED Areas, 1 & 4 in an additional requirement)

7. Members of the Native Vegetation Council or a person who is an authorised officer under the Native Vegetation Act 1991 may at a reasonable time enter the property of the landowner for the purpose of assessing and recording any matter relevant to this consent. A person undertaking such an assessment may be assisted by other suitable persons. Any such inspection will only be taken after there has been an attempt to contact the landowner, and

8. The landowner must adequately inform any prospective purchaser, lessee or occupier of the land affected by conditions in this consent, of the relevant conditions.

(3/4)

REASONS FOR DECISION

The above conditions are imposed on this consent to ensure that:-

1. the loss of biodiversity resulting from the clearance will be offset by establishing a set-aside area or payment to the Native Vegetation Fund;
2. clearance of native vegetation is limited to the area actually approved;
3. the clearance is subject to appropriate conditions to ensure effective monitoring and reporting.

Signed : _____ Dated : _____ (The Decision Date)

FRIENDING MEMBER, NATIVE VEGETATION COUNCIL

A FRIENDING MEMBER, NATIVE VEGETATION COUNCIL

DELEGATE TO NATIVE VEGETATION COUNCIL

NOTES FOR APPROVER

1. In order to acceptance of the Native Vegetation Branch advice and suggested conditions, any clearance authorised by a Formal Notification must be completed within two (2) years of the date of the Notification, or a longer time as allowed by the Native Vegetation Council;
2. You will require a new consent before commencing or continuing the development if you are unable to satisfy the conditions of a consent;
3. If any partial clearance takes place, the conditions apply fully;
4. All areas set aside for revegetation or protection under a condition attached to a consent are protected in perpetuity under the Native Vegetation Act 1991. No clearance of native vegetation within these areas can occur without the consent of the Native Vegetation Council;
5. Please note that the native vegetation authorised for clearance under a Decision Notification may be a useful resource, as a source of seed for local revegetation projects, for woodcraft purposes or as firewood. Please consider notifying any local seed collection groups to offer them the opportunity of collecting seed at the time of clearance, and making any timber from the cleared areas available as firewood or for woodcraft.

Important information for applicants

Applications can be made using the Department's digital platform for online services and transactions. Visit www.DES.qld.gov.au/connect for more information.

This form is to be used to apply for a protected plant harvesting licence. Information requested will enable your application to be processed as prescribed by the *Nature Conservation Act 1992*. Your application must be assessed and a licence granted by the chief executive before you can proceed with the proposed activity. Your application may take up to 40 days to process.

Before completing your application please read the information materials included with your application kit. Before lodging this application you should be familiar with the requirements of the *Nature Conservation Act* available on the Office of the Queensland Parliamentary Counsel website <http://www.legislation.qld.gov.au>. If you have queries about how to complete this form correctly or need guidance contact the Department of Environment and Science (DES) Customer Service Team on 1300 130 372 option 4.

Terms and Conditions

Permits, licences and authorities Queensland's native wildlife is protected by legislation that aims to conserve biodiversity by protecting native plants and animals and their habitat. All native birds, reptiles, mammals and amphibians are protected, along with some invertebrates (certain butterflies, spiders and scorpions), freshwater fish and the grey nurse shark.

Other aquatic species are protected by the [Department of Agriculture and Fisheries](#), the [Great Barrier Reef Marine Park Authority](#) and the Australian Government. A licensing system helps us protect native wildlife species. By regulating the sustainable taking, keeping, using or moving of wildlife for commercial, recreational or other purposes we contribute to the maintenance of viable wild populations of plants and animals. The type of approval(s) you will need depends upon a number of things, including:

- The nature and purpose of your proposed activity
- The tenure of the area in which you intend to undertake your activity and
- The species of wildlife concerned

To apply for permits:

- within the protected area estate (except nature refuges and special wildlife reserves) as defined in the *Nature Conservation Act 1992* (e.g. national park, national park (Aboriginal land), national park (Torres Strait Island land) etc.) or
- within a marine park under the *Marine Parks Act 2004*; or
- within State forest estate under the *Forestry Act 1959* (e.g. state forests and timber reserves) please contact the [Queensland Parks and Wildlife Service](#).
